

# Powermax SYNC™

Cartridge Reader and App

# Hypertherm®

## Purpose

This Field Service Bulletin gives you the instructions for installing and using the Hypertherm Cartridge Reader app. You use the Cartridge Reader app with a cartridge reader and a smartphone that has a near-field (NFC) antenna.

## Kit 528083 contents

Part number	Description	Quantity
429106	Cartridge reader	1
127848	Silicon band for cartridge reader	1

## Install and open the Cartridge Reader app

1. On your smartphone, open the Google Play™ store (Android™ phone), the Apple® App Store® app (iPhone®), or the app store that supports your device.
2. Download and install the Hypertherm Powermax SYNC Cartridge Reader app.
3. Open the app on your smartphone.

## Scan a cartridge

1. Put the cartridge reader fully into the Hypertherm cartridge. Hold the cartridge reader and cartridge together in one hand.

2. On the Home screen, select **Tap to Scan**.
3. Put the NFC antenna of your smartphone directly on the Hypertherm **H** on the cartridge reader.
4. Do one of the following:

- (Android phone) The app scans the cartridge and shows a notification. Tap **Done**.
- (iPhone) Tap **Start Scan**. The app scans the cartridge and shows a notification. On the **Ready to Scan** screen, tap **Cancel**. Then tap **Done**.
